Tel: (609) 698-0700 Fax: (609) 698-0777

## Statement of Limitations Regarding Advance Directive

On January 11, 1992 a New Jersey law took effect which mandates that all health care facilities ask patients whether they have an advance directive or living will. At Coastal Endoscopy Center, we have made this a part of the admitting process. If you have an Advance Directive or Living Will and you wish to provide us with a copy, please bring it with you on the day of your procedure. We will place a copy in your medical record.

Our team is dedicated to delivering the highest quality of care in a safe environment that places the patient at the center of our care. Should there be a medical emergency, Coastal Endoscopy Center has established a policy to initiate resuscitative or other stabilizing measures and transfer you to an acute care hospital for further evaluation. The procedures performed at our facility are considered to be of minimal risk, hence the risk of you needing such measures are highly unlikely. At the acute care hospital, further treatment or withdrawal of treatment measures already in progress will be ordered in accordance with your wishes, advance directive, or health care power of attorney.

You have the option of proceeding with care at our facility or having the procedure at another location that may not set the same limitations. Having been fully informed of our statement of limitations, you choose to proceed with your procedure at Coastal Endoscopy Center.

I have read and understand the Statement of Limitations regarding an Advance Directive.
